PROGRAMME NOTE

Begin is the largest piece that I have written to date. My aim from the outset was to create a high-quality composition (forming a significant part of my PhD portfolio) that is cinematic, energetic and accessible – I took inspiration from film scores.

While exploring meditation, I happened upon quotations of Rumi, the thirteenth-century Persian poet and mystic. Like countless others, I connected with his powerful, concise and mindful writing, which contains beautiful descriptions of the natural world. I was going through a particularly challenging time while composing *Begin*. However, setting Rumi's inspirational words to music was a deeply cathartic experience.

Begin is a celebratory piece about rebirth, new beginnings and the energy one feels after healing from significant loss. This could be the loss of a friendship, relationship, job, home, one's health or a family member. The Covid-19 pandemic continues to cause devastating loss for so many at the time of writing (October 2021).

After a traumatic event, it can be very hard to hear the quiet voice from within. *Begin* is here to help anyone – that is stuck or lost – to take the first steps on their journey of self-rediscovery.

I would like to thank my PhD supervisor, Dr Phillip Cooke, for his advice and encouragement.

TEXT

I. Journey

When will you begin that long journey into yourself?

II. Stars

Let the waters settle and you will see the moon and the stars mirrored in your own being.

III. Silence

Silence is the language of God. When I am silent, I fall into the place where everything is music.

IV. Fire

Set your life on fire. Seek those who fan your flames.

Jalāl al-Dīn Rūmī (1207-1273)
